## SUMMARY

I'm a versatile Full Stack Developer, I bring a strong foundation in both front-end and back-end technologies. My expertise spans across HTML, CSS, and React for creating dynamic user interfaces, while I'm also proficient in MongoDB and SQL databases for efficient data management. Specializing in MERN stack development, I have a proven track record of delivering end-to-end solutions that drive business value. Additionally, my background in Data Science allows me to approach projects with a data-driven mindset, ensuring optimal performance and scalability. My passion for continuous learning and staying updated on the latest industry trends makes me a valuable asset to any team.
